*Imagine you are choosing dry food for your dog. Below is the information you read on a bag of dog food.*

*Read the information and do the following tasks.*

### NEW AND IMPROVED

#### Grade A Dog Chow

**A new and improved line of dog food that  
combines the flavor of real beef with all the essential minerals  
needed for a happy and healthy life.**

**Veterinarians agree that this is the dog food to buy.**

**Essential Minerals** – **Grade A Dog Chow** provides your dog with 12 essential minerals for good health. This means that **Grade A Dog Chow** has three more minerals than is recommended by the National Canine Council. For example, **Grade A Dog Chow** contains zinc for healthy skin, calcium for stronger bones, and sodium for proper kidney function.

**Real Beef** – **Grade A Dog Chow** contains real beef. Most kinds of dog food are flavored with beef, but actually contain little or no real beef at all. Look at the list of ingredients on the container of your dog's food. If beef is not the first ingredient listed, then beef is not the main ingredient. We guarantee that **Grade A Dog Chow** is the only dog food on the market that lists beef first.

**Disease Protection** – **Grade A Dog Chow** is the first and only dog food that provides your dog with protection from heartworm. Heartworm medication is in the dog food. If your dog eats the recommended amount of food each day, it will receive the maximum protection needed to prevent this dreaded canine disease.

**Convenient Packaging** – **Grade A Dog Chow** comes in convenient one-serving size or in 20-pound bags.

**Reasonable Price** – **Grade A Dog Chow** is the best dog food for your money.

**We guarantee your dog will not only like our dog food but eat it with gusto,  
or we'll give you your money back!**

**Underwater Games**

Have you ever seen dolphins? Dolphins are mammals that (0) \_\_\_ in seas and oceans. Dolphins are smart animals, but they are (1) \_\_\_ curious and playful. One of the most (2) \_\_\_ facts about dolphins is how much they enjoy playing. Dolphins can (3) \_\_\_ jumping above the surface of the water and landing on their backs, bellies, or sides just for fun. Dolphins even find ways to entertain (4) \_\_\_ under the water. (5) \_\_\_ they do not have objects to play with, they make (6) \_\_\_ own toys out of air!

(7) \_\_\_ fish, dolphins are mammals that breathe air. They can stay under the water (8) \_\_\_ 15 minutes with one breath. Dolphins can control when they breathe out. The air comes out through their blowholes and makes bubbles. One kind of air bubble is shaped (9) \_\_\_ a circle. It (10) \_\_\_ a bubble ring, and it happens to be the perfect sea toy.

Many scientists (11) \_\_\_ filmed and photographed dolphins playing with bubble rings. Sometimes (12) \_\_\_ looks like dolphins use the bubble rings as targets. They will hit the bubbles with their long noses or spin around and slap the bubbles with their tails. Dolphins also try to bite the bubbles. (13) \_\_\_, dolphins use bubble rings to create more of a challenge. (14) \_\_\_ playful mammals will make a big bubble ring and try to swim through it. They have been seen trying to catch a bubble ring or move it around without breaking it. Sometimes they can (15) \_\_\_ two or three bubble rings together. It is (16) \_\_\_ fun game for the dolphins!

(17) \_\_\_ experts think that dolphins also use bubble rings to help them hunt for food. Dolphins swim beneath the fish and send up bubbles. The bubbles cause the fish to move toward the surface of the water. (18) \_\_\_ the dolphins swim in and grab a tasty snack.

It is amazing (19) \_\_\_ dolphins play with bubble rings. It does not matter if dolphins use bubble rings to help them hunt for food or use them just for fun. What matters (20) \_\_\_ dolphins have fun playing with all the bubbles they make.
